

Sponsorship Workshop, Saturday 22/1/22

We decided on a new, shorter Workshop format for this event, 1.00 to 3.30.

The Quarterly Sponsorship Committee also agreed to make this Workshop for those interested in hearing about Sponsors and Co-sponsors only, not Step Groups.

(There is a Step Workshop being planned)

We adapted the script accordingly and had 4 chairs - 2 on being a Sponsee, 1 on being a Sponsor and 1 on Co-sponsorship.

It was very well attended with 88 people at one point and attendees from all over the world. People really responded and it was very successful.

People connected to each other in the chat box, putting on their contact details and also chatting during the discussion time. Suzanne and I read the script.

The first half of the Workshop included the 4 Chairs and the second half was general sharing, discussion, questions and sharing of information.

We also had shares from those willing to Sponsor which was encouraging.

Suzanne and I have had many positive emails this week, with requests from people to be put in touch with other fellows who attended. And many people have been successfully matched up. We intend to continue doing this.

We are now compiling some new categories of contact lists, which should help us in matching up people in the future.

These are:- Looking for a Sponsor

A Power of 5 Group

Co-sponsorship Group

30 Questions Group

New Workshops.

Frank is working on the formation of a separate Step Workshop, to support the ongoing Step groups and promote communication and information for those wanting to form or join a Step group.

Many groups are now up and running, (since 2020), with a number of time slots for different days of the week.

We continue to work on a Workshop for CoDA Sponsor Development.

This is to support new and experienced Sponsors.

We will be meeting every first Monday of the month to develop and coordinate these 3 different events. For anyone interested in joining please contact us at our email address. The next one being on February 7th at 7.00.

We will continue holding the Quarterly Workshop, with the next one planned for April 2022. (Date to be confirmed).
